Grade: PASS
Certificate, Report

University Work

flutter_ecommerce_website_demo 2021
Dart, Flutter
E-commerce website. The frontend is made with Flutter and the backend (user authentication, database) with Firebase. A simple CI/CD pipeline by GitHub Actions is used to deploy the website.
The website is available [here](#).

qrapp 2021
Dart, Flutter
Android and iOS application for scanning and creating QR codes, while also keeping their history.

game_2048 2020
Dart, Flutter
Implementation of the game 2048 using Flutter for Android and iOS.

ehealth_services_semester_project 2020
Dart, Flutter
Android and iOS application for data visualization of sleep, heart rate, steps and calories from a fitness tracker.
